CAREER OBJECTIVE

Aspiring Java Backend Developer with hands-on experience in Java, Spring Boot, REST API development, and database integration. Seeking an opportunity to contribute to scalable backend applications while strengthening my skills in backend architecture and API development.

EDUCATION

B.Tech in Computer Science and Engineering Graduation: 2027
Oriental Institute of Science and Technology, Bhopal CGPA: 6.67

INTERNSHIP EXPERIENCE

JAVA Tech Stack Intern Feb 2026 – Present *Infosys Springboard* *Remote*

- Developing RESTful backend APIs using Spring Boot following Controller–Service–Repository architecture.
- Implementing JWT-based authentication with access and refresh tokens for secure role-based user access.
- Designing PostgreSQL database schema for users, cases, and profiles with proper indexing and relationships.
- Developing APIs for authentication, profile management, and case submission features.
- Testing and validating APIs using Postman and collaborating with team members using Git and GitHub workflow.

Web Development Intern June 2025 – July 2025 *CodeCase Innovation* *Remote*

- Built responsive web pages using HTML, CSS, and JavaScript.
- Improved frontend debugging and UI development skills.

PROJECTS

Legal Aid Matching Platform

Java, Spring Boot, PostgreSQL, JWT, REST APIs

- Developed backend REST APIs using Spring Boot layered architecture for a legal aid platform connecting citizens with lawyers and NGOs.
- Implemented JWT-based authentication and role-based authorization for Citizen, Lawyer, NGO, and Admin users.
- Designed PostgreSQL relational database schema for managing users, cases, and profile data.
- Built APIs for case submission, case tracking, and lawyer/NGO directory integration.
- Collaborated with team members using Git workflow, pull requests, and code reviews.

Employee Management REST API

Java 17, Spring Boot, Spring Data JPA, Hibernate, MySQL, Docker, Render

- Developed RESTful APIs for managing employee records with full CRUD operations.
- Implemented layered architecture (Controller, Service, Repository) for clean and maintainable code structure.
- Integrated MySQL database using Spring Data JPA and Hibernate ORM for efficient data persistence.
- Implemented input validation and global exception handling using Spring Boot validation framework.
- Containerized the application using Docker and deployed the service on Render.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript
- **Backend Development:** Spring Boot, Spring Security, Spring Data JPA, Hibernate, REST API Development, JWT Authentication
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Frontend:** HTML5, CSS3, JavaScript, React.js
- **Tools & Technologies:** Git, GitHub, Postman, Maven, IntelliJ IDEA, VS Code

CERTIFICATION

- Infosys Springboard – Java Foundation Certification Dec 2025
- LinkedIn Learning – Building Full-Stack Apps with React and Spring Feb 2026

ACHIEVEMENTS

- Participated in the Core Ecosystem Hackathon at OIST Bhopal (May 2025).
- Solved 100+ Data Structures and Algorithms problems on LeetCode and CodeChef.
